## — UNDER THE HOOD — ENTERPRISE-GRADE, MADE SIMPLE

The same building blocks that power large fintech billing platforms — the **WhatsApp Business Cloud API**, **webhook-driven payment reconciliation**, and **n8n workflow orchestration** — tuned for your business and priced for one. You don't touch any of it; you just watch it work.

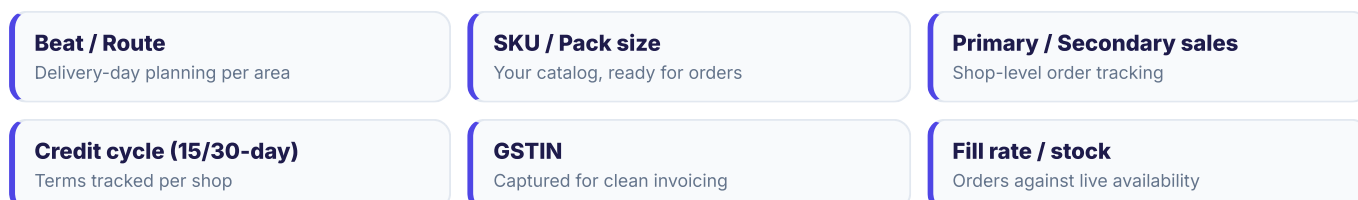

## — THE TECHNOLOGY, IN PLAIN TERMS

## — WE SPEAK DISTRIBUTION 🚚

From **beat routes** to secondary sales and credit cycles, we know wholesale — automation built around how you supply shops.

## — WHY DISTRIBUTORS SEE RESULTS

Automation turns your route into a **loop**: a shop orders on WhatsApp, you confirm and route it, deliver and bill to khata, the reminder brings payment in — and the shop reorders. Every cycle, structured.

## — FROM PHONE-CALL ORDERS TO A STRUCTURED ROUTE
